

POLYURETHANE TS 630X300 PANELS

Advanced Engineering Group offers a wide range of Trellestep polyurethane modular screen panels.

Our poly panels take advantage of compounds and designs maximising the inherent properties of poly in mining applications:

- Energy absorption
- Greater separation accuracy
- Noise reduction - 40% reduction compared to steel
- Stock available in 3mm apt to 24mm apt, 40mm VR, 46mm & 70mm VR
- Unique patented aperture designs optimise throughput and minimise blinding
- Square, slotted, round and customised apertures available on request
- 76 shore A hardness
- Fixation by start channel and round snap-on profiles
