

## STRINGER BAR CAPPING

Stringer Bar Capping comes in both traditional black rubber and newly developed polyurethane. Polyurethane is designed to better protect the steel stringer bars supporting the screen cloths in vibrating screens. The polyurethane capping has excellent ozone, wear and impact resistance and when compared with rubber can be up to 7 times longer in wear life.

STRINGER BAR CAPPING		
Reference	Description	Roll length
RUB202	7mm Short Leg	26.2 metres
RUB203	10mm Short Leg	20 metres
RUB204	12mm Short Leg	20 metres
RUB205	10mm Long Leg	20 metres
RUB206	12mm Long Leg	20 metres
RUB210	10mm Long Leg Flat Top	20 metres
RUB212	12mm Long Leg Flat Top	20 metres
RUB215	15mm Short Leg	20 metres
RUB218	Finlay Round	20 metres
POLYCAP10	10mm Long Leg Poly	15 metres
POLYCAP12	12mm Long Leg Poly	15 metres
